Peatland's Pride Organic Top Soil -

provides organic top soil, finely shredded and screened, rich in humus derived from peat.

Peatland's Pride Organic Peat -

is shredded then screened to remove impurities. Organic peat holds moisture and releases plant food locked in soil, loosens heavy clay, gives sandy soil body, creates a loamy texture in all soils, aerates, conditions and encourages root growth in healthy plants.

Peatland's Pride Composted Cow Manure & Peat Humus -

is a mixture of cow manure, peat and organic humus derived from peat. This mixture is shredded and screened.

Peatland's Pride Organic All Purpose Potting Soil

is specially formulated with peat, perlite and organic humus derived from peat to grow most house plants. This product is finely shredded and screened.
